OBJECTIVES OF BUILDINGS & SITES

This series of the board policy manual sets forth the board objectives and goals for the school district's buildings and sites. It is the goal of the board to provide sufficient school district buildings and sites for the education program within the limits of the established curriculum and the financial ability of the school district. The board will strive to provide an environment which will encourage and support learning.

In providing this environment the school district buildings and sites will accommodate the organizational and instructional patterns that support the education program. The board has final authority to determine what is necessary to meet the needs of the education program.

It is the responsibility of the superintendent to oversee the day-to-day operations of the school buildings and sites and to notify the board of areas in need of improvement.

BUILDINGS & SITES LONG RANGE PLANNING

As part of the board's long range plan for the school district's education program, the board will include the buildings and site needs for the education program. The long-term needs for building will be discussed and determined by the board.

It is the responsibility of the superintendent to provide information including, but not limited to, enrollment projections and education program requirements to the board.

BUILDINGS & SITES SURVEYS

The board may engage the services of consultants or other personnel to study the needs of the school district's buildings and sites in providing the education program. The results of these services will be considered in planning the education program and in making decisions about the improvement and acquisition of additional buildings and sites.

It is the responsibility of the superintendent to make a recommendation to the board regarding the need for such services and who should perform such services for the board.

EDUCATIONAL SPECIFICATIONS FOR BUILDINGS & SITES

Buildings and sites considered for purchase or construction by the board or currently owned by the school district and used for the education program must meet, or upon improvement be able to meet, the specifications set by the board. The board will make this determination.

Prior to remodeling or other construction of buildings and sites, the board may appoint a committee of consultants, employees, citizens, or others to assist the board in developing the specifications for the new or improved buildings and sites. These specifications, which may use existing technology, will be consistent with the education program and will provide the architect with the information necessary to determine what is expected from the facility. It is within the discretion of the board to determine whether a committee is appointed.

The education specifications will include, but not be limited to, the financial resources available for the project, the definition and character of classrooms, the functional use to be made of the rooms, description of specialized needs, and other pertinent information as the board deems necessary.

It is the responsibility of the superintendent to make a recommendation to the board regarding the specifications of buildings and sites.

SITE ACQUISITION

Sites acquired by the board will meet or, upon improvement, be able to meet the specifications set out by the board prior to using the site for the education program. The board may meet in closed session to discuss potential purchases of sites.

It is the responsibility of the superintendent to assist the board and to make recommendations concerning the acquisition of sites.

BIDS AND AWARDS FOR CONSTRUCTION CONTRACTS

The board supports economic development in Iowa, particularly in the school district community. Construction contracts will be made in the school district community or in Iowa from Iowa-based companies if the bids submitted are comparable in quality and can be received without additional cost in comparison to those submitted by other bidders. The board will have the authority to approve or retain construction contracts.

Public, competitive sealed bids are required for construction projects, including renovation and repair, with a cost exceeding \$25,000. The public, competitive sealed bid requirement is waived in the case of emergency repairs when the repairs are necessary to prevent the closing of a school. The AEA administrator will certify that the emergency repairs are necessary to prevent the closing of a school.

The award of construction contracts will, generally, be made to the lowest responsible bidder. The board, in its discretion, after considering factors relating to the construction, including, but not limited to, the cost of the construction, availability of service and/or repair, completion date, and any other factors deemed relevant by the board, may choose a bid other than the lowest bid. The board will have the right to reject any or all bids, or any part thereof, and to enter into the contract or contracts deemed to be in the best interests of the school district.

It is the responsibility of the superintendent to make a recommendation and the reason for it to the board for construction contract bids.

MAINTENANCE SCHEDULE

The school district buildings and sites, including the grounds, buildings and equipment, will be kept clean and in good repair. Employees should notify the building principal when something is in need of repair or removal, including graffiti.

It is the responsibility of the superintendent to maintain the school district buildings and sites. As part of this responsibility, a maintenance schedule is created and adhered to in compliance with this policy.

REQUESTS FOR IMPROVEMENTS

Generally, except for emergency situations, requests for improvements or repairs are made to the superintendent by building principals and the head custodian. Requirements for requests outlined in the maintenance schedule will be followed.

Minor improvements, not exceeding a cost of \$ 10,000.00, may be approved by the superintendent. Improvements exceeding \$ 10,000.00 must be approved by the board. Routine maintenance and repairs outlined in the maintenance schedule will be followed.
